ABOUT US

Our company started to take its first steps in a workshop of 25 square meters in 1976. With its brave and innovative initiatives, the company produced the first garden furniture in Turkey. With the increase in demand for garden furniture in those years, it became the market leader by focusing on the production of solid garden furniture with the Garden Art brand in 1979. Moreover, Garden Art has been involved in many hotel and restaurant projects with the advantages of wholesale purchase.

This initiative, which has developed with the admiration and support of its customers, has turned into a new brand, Garden Art Home, by following the design trends in the world and increasing its product range day by day, adding handmade wooden accessories with the principle of "Master hands gave life to wood".

Garden Art Home, which has a wide product range by appealing to different tastes, has served with 50 franchises in Turkey and 2 franchises in Cyprus and Azerbaijan. Apart from this, company took part in many projects in various countries abroad. Garden Art Home continues on its way among the leading companies of Turkey by aiming to offer accessible products to its customers in line with the principles of being modern, comfortable, always of high quality and being different.
